

General Statement of Compliance

We herewith state and confirm that Sonae Arauco wood based panels comply with the *Ordinance on bans and restrictions on the marketing of hazardous substances, preparations and products – ChemikalienVerbotsverordnung*.

To implement this regulation (so-called "E05"), Sonae Arauco established a set of raw board correlations of his internal control method with the emission chamber method, with the support of external laboratories (2019: EPH Dresden / 2020: WKI Braunschweig). We also tested and confirm that surfaced boards (MFC and MF MDF) comply with the required values of "E05".

This General Statement of Compliance applies to products produced in:

Sonae Arauco Beeskow GmbH
Radinkendorfer Straße 71
15848 Beeskow
